- Moving to Tremough Campus near Falmouth in 2004 as part of “*The University of Exeter in Cornwall*”

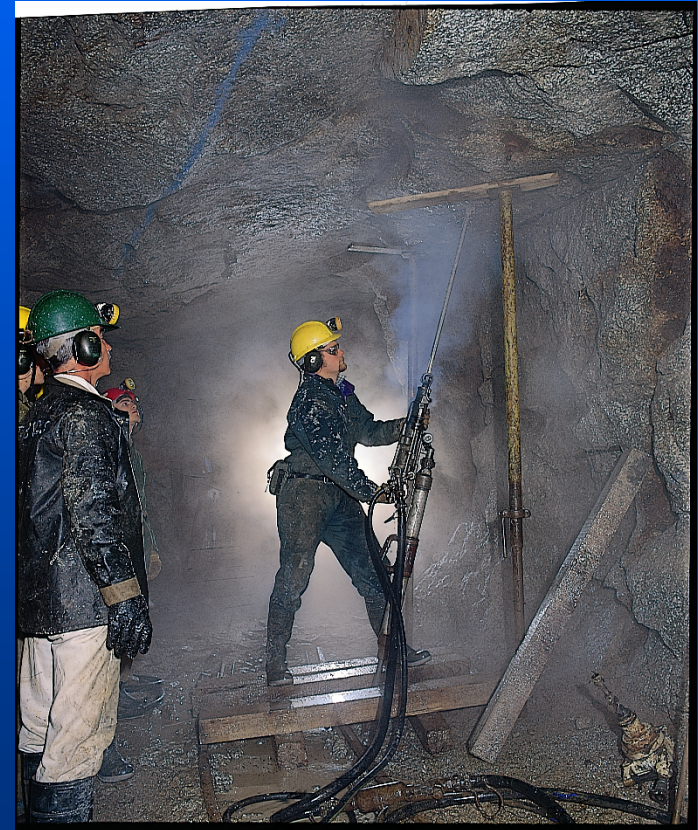

Part of Tremough Campus

Field Station

Holman's Test Mine

Degree Programmes - PG

- MSc Mining Engineering
- MSc Minerals Engineering
- MSc Engineering Geotechnics
- MSc Mining Geology
- MSc Surveying & Land/Environmental Management

Degree Programmes - UG

- Mining Engineering
- Applied Geology
- Engineering Geology & Geotechnics
- Environmental Science & Technology
- Coastal Zone Environmental Management
- Renewable Energy

Research projects

- New generation of numerical models for underground and surface stability
- Modern communications technology for underground applications
- Improved blasting design and practice using electronic detonators
- Characterising and managing environmental impacts of mining and quarrying
