Safety audit on 'collect' vehicles	
ARTICLE	
DESCRIPTION	
<p>Local Asphalt operates an asphalt-collect business and has numerous customers collecting various materials from their sites. There was a need to ensure all customers and vehicles were safe and fit for purpose and that the company™s site rules and policies were understood.</p> <p>A programme was put in place that included the following:</p> <p>Drivers were taught a ,3-point contact™ message when getting in and out of vehicles and they were encouraged to promote and sign up to a 12-point safety essentials programme</p> <p>All vehicles and drivers to be re-audited every six months</p> <p>Site rules and policies were distributed and the content explained</p> <p>A PPE examination of all customers and visitors was established</p> <p>Identification and actioning of problem people and vehicles</p> <p>Overall control of vehicles</p> <p>Recording all details, defects and improvements to pass on best practices</p> <p>Involvement of all staff and customers.</p>	
BENEFITS	
<p>Customers now have a clear understanding of the safety procedures and what represents good practice. The involvement of staff and customers has helped improve the attitude to safety of all those who have participated</p>
