TITLE

Toolbox talks for hauliers

ARTICLE

Tarmac Western has developed a two-hour toolbox talk aimed at its contract and regular hired haulage. During 2005, a total of 600 hauliers attended a number of sessions, covering:

- L Tarmac™s principle of Zero Tolerance Target Zero
- L Tarmac Golden Rules video
- L Tipper Haulier Guide
- L Transport Safety Health & Environmental Guide for hauliers
- L Safety Rules for Tarmac Contracting, including reversing
- L near hit reporting
- L vehicle specification.

At the end of each session, the EPIC video, Driving Down Accidents, is shown. The concrete and mortar business has adapted the toolbox talk for truck mixer drivers.
