TITLE

Safety Awareness Day

ARTICLE

For many years, the Health & Safety Executive has worked in partnership with the South East Quarries & Landfill Group to organise an annual safety awareness day. The 2004 event was held at Tarmac™s Colchester Quarry in Essex. Almost 100 attendees were given a tour of the quarry and landfill operation, with discussions held at a number of •topic stations•, each highlighting key issues such as workplace transport, manual handling and water safety. Delegates are charged a nominal fee to attend and profits donated to local charities.
