LEARNING POINTS / ACTIONS TAKEN	
Preventative Actions taken within C&M:	
-The homemade heavy scraper has been replaced with a lightweight one which is fit for purpose. (-A sonic boom generator has been ordered and will be fitted to the chute. This will automatically di remove the need to use hand tools, removing a hazard and making the plant more productive. (fur available from John Price, manager Llanwern) -An audit of all hand made tools has been undertaken resulting in a lot of scraper, bars, drifts etc b some existing tools have been redesigned, replacing old tools.	islodge build-up and ther details
