COUNTRY OF ORIGIN:			

TITLE
Creation of an Occupational Health and Wellbeing (OHWB) Learning Centre at 'The Park'
ARTICLE
In February 2020, Tarmac opened its National Skills & Safety Park. This is a dedicated learning facility that has been set up as part of an operational site. New operators are able to gain hands-on practical experience and training relating to the different areas of Tarmac's business. The site is home to Tarmac's operational inductions, the professional operator development programme and training in both technical skills and behavioural safety.
