TITLE

Eurobitume Winner 2022 - CEMEX

ARTICLE

CEMEX Stourton

The Judges said that the winning entry was a good example of the investigation of incidents and near misses, which looked at the combined effects of a number of root causes.

The company had then come up with simple and cost-effective solutions for preventing potentially catastrophic incidents. CEMEX has used available technology to create a range of solutions which can be simply rolled out by others.

Please watch the video to see the steps that CEMEX asphalt division took to make its sites involved with the storage and management of bitumen safer.
