TITLE

Environmental spillage carts

ARTICLE

An innovative solution was introduced to deal with environmental spills. Having taken inspiration from a local authority cleaning operative, a cleaning cart was obtained from the local council, and converted to an environmental cart. The cart contains all that is needed to deal with a spill, including a brush; shovel; cones; emergency spill kits; plastic chain for isolating the area; signs; and adsorbent granules. With a little imagination, an inexpensive way of coping with minor environmental spills has been found.
