COUNTRY OF ORIGIN: United Kingdom

TITLE

Dumper load cameras

ARTICLE

During inclement weather, dumper drivers used to regularly leave the cab to check that the load was being distributed evenly and was not overhanging the sides. To negate these need for this action, the site decided to fit another rear-view CCTV camera on the side of the vehicle, overlooking the body. It thus became possible for the driver to see the load on the monitor without having to leave the cab.
