TITLE

GeoValue: Valuing geodiversity for the community

ARTICLE

This is a MIST funded project led by David Roche Geoconsulting.

It is the part of the project entitled Access and Safety at Geological Sites which is of most importance. It examines the legal and safety issues in accessing geological sites, particularly active quarries.

With Camborne School of Mines at the University of Exeter, Cornwall Wildlife Trust, British Geological Survey, Health & Safety Executive, English Nature (now Natural England) and the HSE.

A full copy of the report can be found at www.mi-st.org.uk or follow the link on the links page to the website. Project MA/5/2/001.
