Focussing on *Driving Change...Raising Standards...Improving Perceptions*, find out more about **Vision Zero** – MPA's Health and Safety strategy focussed on eliminating 'The Fatal 6' high potential hazards responsible for most of the fatalities and serious injuries in our industry.

MPA's health and safety specialists will also be on hand to explain the 'Safer by...' initiatives and resources that are free to members. These will play an integral part in helping us achieve our goal of eliminating 'The Fatal 6' by 2025.
