

Safer by Sharing Webinars 2024

Upcoming Webinars on LOTOTO and Isolation

Book now FREE OF CHARGE - accredited for CPD

MPA 'Safer by Sharing' webinars are available to all, free of charge and accredited for CPD. The 'Safer by Sharing' sessions help to facilitate the transfer of health and safety knowledge and skills throughout the MPA membership.

Wednesday 31st January – 10am

Safer by Sharing Webinar: Do Not Disrespect LOTOTO

Thursday 14th March – 2pm

Safer by Sharing Webinar: Do Not Disrespect LOTOTO

The two webinars are being held in conjunction with Associate Member, Reece Safety. Given by the Head of Training at Reece Safety, Mark Wright, they are intended to refresh the subject of LOTOTO and serve as a reminder of how simple actions with padlocks can save lives. The content of each webinar will aim to reinforce the critical need for LOTOTO and to challenge people to reflect on the subjects raised.

Do Not Disrespect LOTOTO

Reece Safety has supplied services across nearly all the members in the MPA over many years and are passionate about spreading the word for safe working.

This webinar is being run by their experienced Head of Training, Mark Wright (pictured), and it is intended to refresh the subject of LOTOTO and serve as a reminder of how simple actions with padlocks can save lives. It will also raise subjects where there are very mixed approaches in how they are handled across the industry, and these would be where people could take a closer look at themselves and possibly make further improvements.

Recent news has shown the tragic consequences of LOTOTO failure. The webinar aims to reinforce the critical need for LOTOTO and to challenge people to reflect on the subjects raised. It is hoped that this will generate questions and discussions, which will take place during the webinar.

(Approximate event duration: 1 hour)
