DVD project „Safety First“

4th Atlantic Alliance Conference

Ludwig Berger, Director Health, Safety and Environment - Lafarge Roofing
The concept was developed in cooperation from StBG and Lafarge Roofing

Not just a clip, but a training concept in sequences
- Non-verbal clips to be used by supervisors and Safety trainers
- Interactive discussion about safe and unsafe behaviour
- Support by users manual (German and English) for trainers

Training sessions can be divided into lessons
Concept of the DVDs 2/2

- Training package per subject
  - DVD with 6-8 different sequences
  - CD (training manual, user guide, training documentation)

- Four subjects finalised>> more are coming
  - Slip, trip and fall
  - Portable ladders
  - Manual handling
  - Pedestrians and mobile equipment
  - In production: fork lift trucks
Step 1: Show the negative sequence with the unsafe behaviors.

Step 2: Challenge the employees to discuss the hazards are shown.

Step 3: Encourage the employees to identify safe ways of behavior, then show the positive sequence.

Step 4: Agree on the binding rules of safe behavior and the consequences of unsafe behavior with the employees.
Safe and unsafe behaviour
