

BRIEFING NOTE 2024

8 TOPIC AWARDS • EUROBITUME AWARD • 'THE FATAL 6' AWARD

ENTRIES WELCOME FROM

- All sectors within the mineral products industry
- MPA Members and Non-Members
- Operators, contractors, suppliers and service providers

MPA Health and Safety Awards

Aggregates, Asphalt, Cement, Contracting, Dimension Stone, Lime, Masonry, Mortar, Precast Concrete, Ready Mix, Recycling, Silica Sand and Transport

WHY ENTER?

5 Reasons to enter the MPA Topic Awards

1. Sharing your innovations and good practice will

- Help prevent serious injuries and fatalities
- Help others to eliminate hazards in their workplace
- Help others change unsafe behaviours
- Help others learn from your experience
- Helps the industry achieve Vision Zero

2. Entering will raise your company's profile

- With your key stakeholders and customers
- H&S award winners recognised both in UK and internationally
- Demonstrates your company's commitment to health and safety
- Enhances your company's credibility with peers

3. Entering will motivate and reward your team

- Employees and others involved benefit from their achievement being recognised
- Feedback from winners demonstrates positive impact on employees
- Reinforces your company's commitment to Vision Zero

4. Entering will help drive industry improvements

- Many ideas highlighted in previous years have now become widely adopted by the industry raising standards and driving better performance

5. Entering will result in your good practice and innovations being

- Promoted at the online 2024 MPA Health and Safety Awards event
- Promoted via videos widely shared across the industry
- Promoted via Safequarry and other social networks
- Promoted in the printed and digital MPA Sharing Good Practice Guide
- Reported in industry media

Relevant entries will also be automatically entered into Eurobitume and 'The Fatal 6' Awards

IS IT EASY TO ENTER THE MPA H&S AWARDS?

- Straight-forward and simple process
- Completion of short Word form
- Clear guidance provided on what is required
- Quick and easy to fill in forms
- You can make as many entries as you wish
- It is free to enter

WHO CAN ENTER?

MPA welcomes entries from any organisations which meets the following criteria:

- Must relate to activities in a product sector represented by MPA
- Must relate to activities based in the UK

Entries can be submitted;

- From either MPA members or non-members
- From any size of organisation - an SME up to a multinational
- From industry operators, contractors, suppliers or other service providers
- From an organisation that represents companies or individuals working in MPA product sectors
- Joint entries can be made

Entries must be approved by your line manager

WHEN MUST YOU ENTER BY?

Topic Awards submitted by 30th April 2024.

WHAT ARE THE TOPICS FOR ENTRIES?

You can make an entry under the following 8 topics – a more detailed explanation of these topics is available on the following page.

1. Safer production
2. Safer maintenance and housekeeping
3. Safer handling of inbound and outbound materials
4. Safer management of pedestrians and transport on-site
5. Safer transport and logistics
6. Safer operations at a contracting, construction or customer site
7. Safer through improvements in health and wellbeing
8. Safer together

Topic 6 is designed for entries relating to **contracting** and activities at a **construction site or customer site**.

Entries for **topics 7 and 8** can relate to either **a specific site, a division or a company-wide initiative**. These 2 topics have a greater emphasis on worker involvement, leadership, behavioural change, people management, communication and inclusion.

Many of the topics above are closely aligned with 'The Fatal 6' but it is understood that not all entries will directly relate to them.

Please see what people said about the [2022 MPA H&S Awards](#)

Support 'The Fatal 6' initiative by reviewing and acting on these high consequence hazards within your organisation:

1. Contact with moving machinery and isolation
2. Workplace transport and pedestrian interface
3. Work at height
4. Workplace Respirable Crystalline Silica
5. Struck by moving or falling object
6. Road Traffic Accidents

WHAT IS REQUIRED TO ENTER?

Please submit an entry because you'll be helping to make our industry safer for everyone. Winners for example could be:

- **New ideas, systems and innovations**
- **Good implementation/enhancement/adaption of a previous idea or entry**
- **A company/site that demonstrates a good application of health and safety practices and procedures e.g isolation or pedestrian safety**

Please be reassured that all entries will be considered regardless of presentation, word count or grammar.

Please complete a standard entry form with the following:

- a. Name of organisation submitting the entry and contact information
- b. What were the issues/problems/hazards/behaviour you were seeking to resolve/eliminate/mitigate/change?
- c. What you did and how the process was managed?
- d. What are the benefits and the evidence to support this
- e. How the entry demonstrates innovation. Is this a new concept?
- f. Do you have further development plans. How transferrable is this concept to other sites, companies or industry sectors

CAN I ADD SUPPORTING IMAGES/RESOURCES?

It would be helpful to support your entry with images, and if available, video clips (eg. using a mobile phone). If other resources are already available such as Powerpoint, PDFs, posters please feel free to submit these as well. The entry form provides further guidance on these sections.

WHERE CAN I OBTAIN AN ENTRY FORM AND WHAT HAPPENS NEXT?

- Download an entry form from www.safequarry.com, the entry form includes some helpful tips.
- When you have completed the form please forward it to entries@mpahsawards.org
- Your entry will be acknowledged and assigned a unique number. This will be included in your confirmation from MPA
- MPA reserves the right to re-assign an entry to a different topic if they feel this would be more appropriate.
- You will be informed by MPA if you have been shortlisted and you may be contacted by a judge requesting a site visit or asking further questions
- Should you have any questions or want advice please contact entries@mpahsawards.org
- Entries which are shortlisted as finalists will be contacted regarding the provision of a video of their entry.

HOW WILL THE ENTRIES BE JUDGED?

Each category will be reviewed by an independent judge who is an expert in their field. The judges will use 5 key criteria to assess the forms, the best entries will be shortlisted for further review. If shortlisted, you may be contacted by the judge.

WHAT ARE THE CRITERIA THE JUDGES WILL USE?

The entries will be scored against the following 5 key criteria.

The weight assigned to these criteria may vary depending on the topic, this is detailed on the entry form.

The overall score achieved by the entry will determine whether it will be shortlisted for further evaluation.

1. What are the benefits?
2. How was the process managed?
3. How innovative/original is the solution/process/management system, concept?
4. How transferable is this within the company, industry or beyond?
5. The judges' view of the entry, the relevance to the topic, and quality of evidence provided etc.

'THE FATAL 6' AWARD - AUTOMATIC ENTRY

Only MPA member companies will be eligible for 'The Fatal 6' Award.

You do not have to submit a separate entry form but you will see on each entry form, there is a tick box for you to state whether your entry relates to 'The Fatal 6' and if so, which one/s.

The judges will select those entries that have demonstrated the greatest potential to mitigate a hazard associated with 'The Fatal 6' and enter them for this award.

EUROBITUME AWARD - AUTOMATIC ENTRY

Only MPA Members will be eligible for Eurobitume award.

You do not have to submit a separate entry form for this. Please tick the box in the form that indicates you would like to be considered for the Eurobitume award.

The Eurobitume Award is designed for entries that relate to the handling or processing associated with bitumen and activities associated with contracting/paving.

WHERE AND WHEN IS THE AWARDS EVENT?

The announcement of winners will be made at the MPA Health and Safety Awards. This is the premier event for health and safety within the mineral products industry that showcases the steps the industry is taking to move closer to the achievement of 'Vision Zero'. It will be held in the Autumn of 2024 as a free to all online event. Further details will be provided in the Spring.

Support 'The Fatal 6' initiative by reviewing and acting on these high consequence hazards within your organisation:
1. Contact with moving machinery and isolation 2. Workplace transport and pedestrian interface 3. Work at height
4. Workplace Respirable Crystalline Silica 5. Struck by moving or falling object 6. Road Traffic Accidents

Entry topics for the 2024 MPA H&S Awards

Aggregates, Asphalt, Cement, Contracting, Dimension Stone, Lime, Masonry, Mortar, Precast Concrete, Ready Mix, Recycling, Silica Sand and Transport

Please review these topics and consider under which topic your entry should be submitted. The short descriptions provide an indication of type of activities or initiatives that judges would expect to see submitted under this heading. Please contact entries@mpahsawards.org should you wish to discuss your topic selection or need further advice.

Please note that all entries from **MPA Members** will automatically be entered for **The Fatal 6' Award** and **Eurobitume Award** if relevant.

1. Safer production

This section covers **extraction, manufacturing and processing**. An entry that describes a new innovation, engineering solution, system, control measure, change in a process/procedure, warning system or training programme that has made manufacturing or processing safer. This covers all activities involved in creating products e.g. from preparing for blast at a quarry to the manufacture of precast products.

Note: This section would also include **investments in new plant**.

2. Safer maintenance and housekeeping

An entry that covers all aspects of maintenance or housekeeping across all product groups. E.g. this category would cover safer methods of carrying out a maintenance process, cleaning or an innovation that made a maintenance process unnecessary. Note: This might include a major shutdown or refit if not placed in classifications 1 or 8.

3. Safer handling of inbound and outbound materials

The unloading/delivery of materials to a site such as bitumen, chemicals, explosives, fuel, aggregates or cement and their storage.

OR

The storage of finished products and their loading for transit such as precast products.

Note: This could include **product testing**.

4. Safer management of pedestrians and transport on-site

An entry that relates to the safer management of people (employees, contractors, suppliers, customers and members of the public) and vehicles on-site. This could include site inductions, traffic management, pedestrian zones and control systems around an UK member operated site.

5. Safer transport and logistics

An entry that relates to improving the safety of transport from the plant to the end user/customer site. This would include training of hauliers, safety devices on vehicles, measures to improve the safety of other road users, cars, vans, rail and waterborne transport.

6. Safer operations at a contracting, construction or customer site

The safer unloading, storage or handling of products at a customer/end user site. eg precast.

OR

The delivery of services at a customer or construction site including **on the highway**. This section would include entries relating to **contracting, laying and installation of precast products**.

7. Safer through improvements in health and wellbeing

An entry that relates to initiatives that improve the health and well-being of people, this could be at **a specific site, within a division, or a company-wide** initiative. This could include management of **mental health, diet, medicals**, or possibly a hazard such as **dust or chemicals** if not more appropriately covered in an earlier topic.

8. Safer together

An entry where the main emphasis is on working together, leadership or behavioral change. It might include training programmes, safety days, communication programmes, cross site safety audits or similar initiatives. These entries could be **site-specific, relate to a division or be a company-wide** initiative.
