

Maintain good discipline at all times

*Do not compromise any existing health and safety controls
If you do not think it is safe – STOP!*

Has the task changed?

- Does the SSOW reflect COVID-19 measures?
- Does the risk assessment reflect this?

Do not be tempted to:

- Undertake a task that normally requires two people on your own
- Undertake any task if you think it is unsafe to do so

If you cannot undertake the task safely - STOP

*Wash your hands . . . Maintain social distancing . . .
Clean your equipment . . . Maintain discipline*
